

Quality
Reliability
Efficiency

“DIPROGAZ” Ltd.

- Established 2001 yr.;
- Personnel basis – 50 well qualified engineers;
- Obtained experience at the leading Ukrainian and Russian designing institutes;
- Certain specialist are certified in Ukraine and Russia;
- Received licenses in Ukraine and Russia for the principal activity types;
- Great attention to the experience transmission to the young specialists;
- Efficient and qualitative orders execution;
- Equipped with the modern personal computers;
- The newest program and software complexes;
- Top quality copying equipment;
- The latest instruments for the engineering surveys.

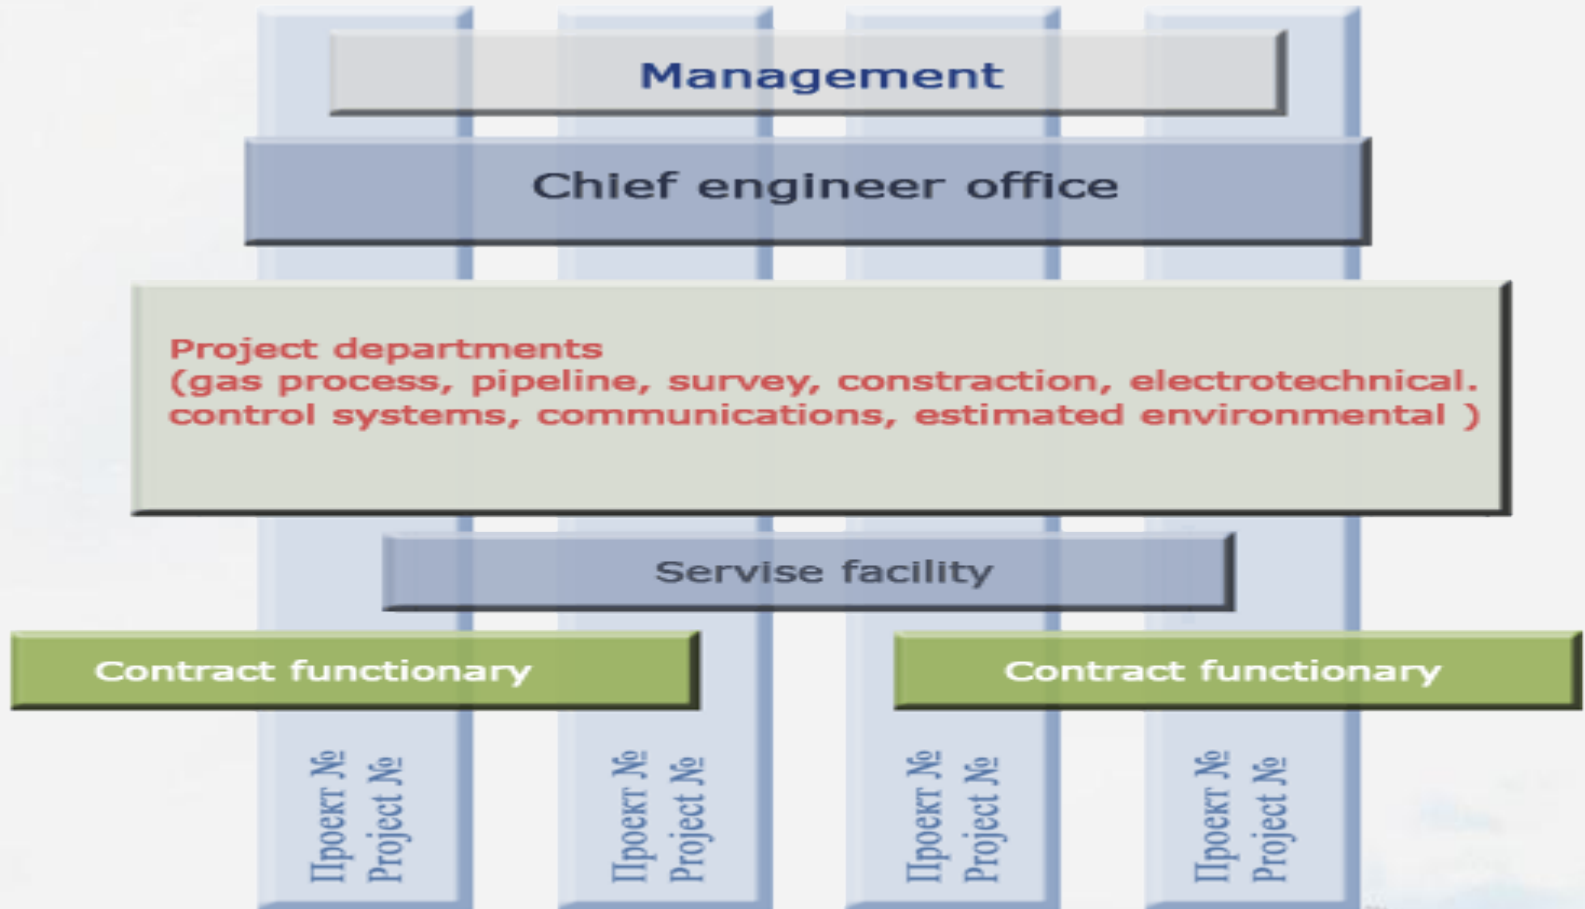

Primary objectives:

- The range of services provided diversification;
- Obtaining the international quality certificate and continuous quality improvement;
- Cooperation with foreign and domestic companies;
- Search for new and original approaches to work with maximum use of the enterprise potential;
- Constant equipment and software upgrade;
- Participation in seminars, conferences and training courses;
- Steady financial prosperity increase of the whole company itself and every employee in particular;
- Social protection for employees improving.

Company Strategies:

- Ensuring viability;
- Dynamical development;
- CIS market shares increase;
- Going global;
- Stable profit growth;
- quality management system, design and production of project estimates implementation in accordance with the international standards.

Over the past years it was formed by «**DIPROGAZ**» Ltd. a flexible project management structure, taking into account market changes in working areas that ensures the continuous development of enterprise and industrial schedule. Created new additional departments: documentation estimate, project documentation output.

“DIPROGAZ Ltd. company personnel is not just a group of well experienced specialists but also united team of adherents, joint appetency to fulfill orders, obtained in result of the tight competition, promptly and efficiently. The core team consists of a group of 50 qualified engineers, each of them has been engaged at work more than ten years of professional experience in leading Ukrainian and Russian designing institutes.

Employees length of services in the gas designing field

Employees length of services in the gas designing field

The leading experts (engineers) pay much attention to the young personnel, which is an important condition for further enterprise development.

- main gas pipelines with compressor stations and measurement facilities;
- gasification objects;
- energy-saving technologies;
- carrying out approvals and obtaining permits;
- technical and economic studies;
- engineering topographical, geological and environmental survey for construction;
- communications, electricity, water, sanitation and other communications;
- corrosion inspection of pipelines, electrochemical means;

- gas pipelines choice of routes, sites for future facilities and necessary approvals;
- calculations, permits and projects on the environmental impact assessment;
- equipment completing, procurement and supply from Ukraine and other countries;
- search for the contractor companies for construction and technical supervision of construction, documentation execution "as built";
- tender documentation;
- general construction engineering projects for various industries;
- feasibility studies and investment projects in the oil and gas sector;
- oil and gas industry objects certification.

Compressor stations:

- CD 3-b CS 16 "Yubyleynaya" reconstruction, (Russia);
- CD 4 CS 16 "Yubyleynaya" reconstruction, (Russia);
- CS "Krasiliv" ACS GTK-10;
- CS Proletarsky underground storage facility, reconstruction;
- condensate fields booster CS Komyshnyanskoho, Potichanskoho, Horobtsivskoho, Opishnyanski;
- CS "Novosibirsk", CS "Nyuksenytsa" technical inspection, engineering survey,

The gas pipeline linear part (sections):

- Pochinki - Hryazovets;
- Parabel - Kuzbass;
- Kyyanly coastal pipeline - border of the Republic of Kazakhstan, Turkmenistan;
- Ukhta - Torzhok;
- Torzhok - Minsk - Ivatsevichi;
- The gas pipeline modernization Urengoy-Pomari-Uzhgorod;
- The main pipelines and road crossings capital repairing, water obstacles.

Infrastructure facilities:

- Infrastructure reconstruction OJSC "Severnie Magistralnie Nefteprovodi".

GDS:

- Voyskovytsi, Zubtsov, Krasnoarmeyets, Trud, Verhnovolzhska (Russia);
- Martusivka, Ladyzhynka, Kalush, Novoarkhangelsk (Ukraine).

AGFCS:

- Mamadish, Chystopil, Tatarstan (Russia);
- New Kakhovka (Ukraine).

Sites certification:

- Ukrainian gas transportation system.

Ukraine:

- NJSC "Naftogaz Ukraine"
- SC "Ukrtransgaz"
- RPD "Kievtransgaz"
- RPD "Cherkasitransgaz"
- RPD "Kharkovtransgas"
- RPD "Prykarpattransgaz"
- RPD "Donbastransgaz"
- SC "Ukrgezvydobuvannya"
- PJSC "Ukrgezproekt"
- PJSC "VNIPITRANSNGAZ"
- CJSC "Gastransit" (Kyiv)
- SC "Poltavagazvidobuvannya"
- Company "Itera"
- Ukrainian RSA
- "Ukrgezteh" Ltd.
- "TiK" Ltd.

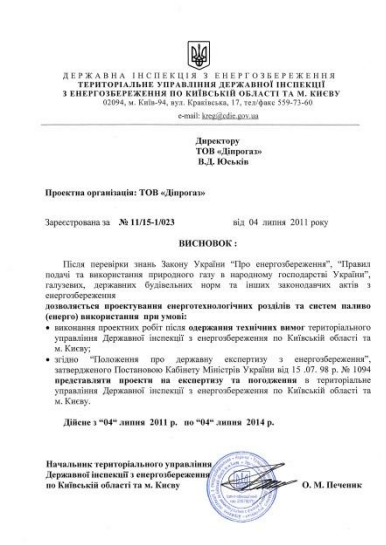

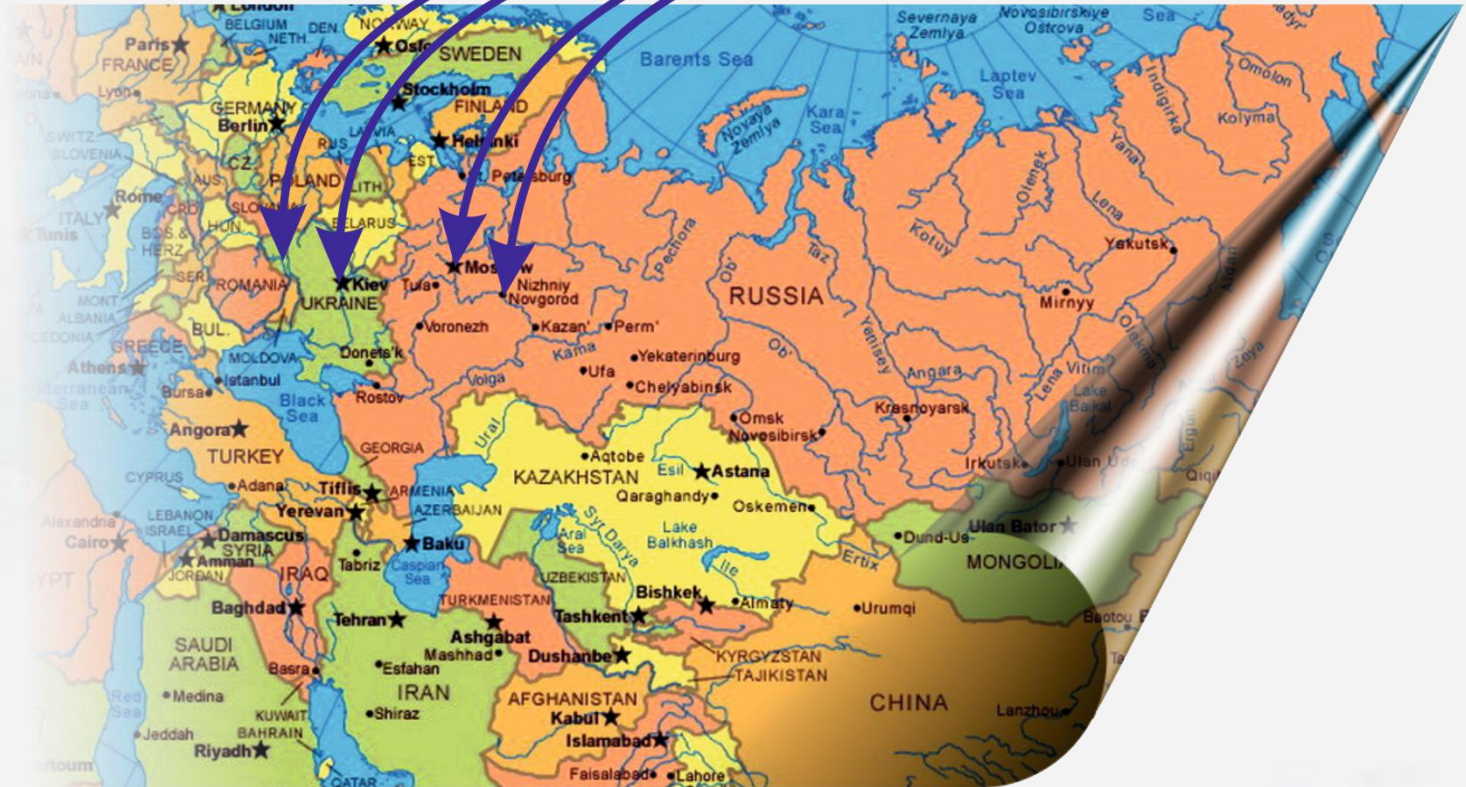

Russia:

- OJSC "Stroytransgaz"
- OJSC "Severnie Magistralnie Nefteprovodi"
- Company «Petrogaz»
- CJSC "Masheksport"
- OJSC "Gyprogaztsentr"
- "Ortneftehym" Ltd.

Objects designing geography

Over the years of "DIPROGAZ" Ltd. existence it was established offices in Moscow and Nizhny Novgorod (Russia).

There are also subsidiaries in Ivano-Frankivsk and Kiev in order to solve local tasks and objectives.
